Agenda

1. Our purpose & priorities
2. Our funding offer
3. Who & what we can fund
4. How to apply

Our purpose

We support people and communities to thrive.

Our goals:

- We support ideas and activities that matter to people and communities.
- We use our funding and relationships to help create stronger, more connected communities.
- We support charities and community organisations across the UK to be vibrant, diverse and active.

Our principles

People Led

Ensuring the people you work with are meaningfully involved in the development, design and delivery of your work.

Strengths based

Supporting people and communities to build on the knowledge, skills and experience they already have to make the changes they want.

Connected

Demonstrating a good understanding of other activities and services in the community and showing how your proposal will complement these.

Our approach

- Open to all
- Flexible
- Proportionate
- Conversational

Our priorities in England

Stronger relationships

We support ideas that bring people together, strengthening relationships in and across communities

Shared and sustainable places and spaces

We support people to shape and sustain the places that matter to them, like a park, community centre or online network

Early action to prevent problems and tackle disadvantage

We support activity that empowers people to fulfil their potential, working to address problems at the earliest possible stage

Our priorities in response to the pandemic

We'll continue to support people and communities most adversely impacted by COVID-19.

We want to do more than support organisations to survive; we want to support communities to thrive and grow.

Our priorities in response to the cost of living

- We will keep all our funding open and available
- We will be flexible and adaptable
- Our commitment to people and communities remains a constant
- We will work with others to draw on knowledge, insight and foresight
